

Stainless Steel Tanks

All standard stainless steel tanks from the ST range come ready for use, fully fitted with air pressure regulator and gauge, air pressure relief valve and outlet 6mm compression fitting.

The stainless steel tanks are available in **1L, 2L, 5L, 10L and 25L**.

Use this document to review and select the right tank for your application.

ST Series Pressure tank Family

With Level Sensors

-LS Series

- Low level Float Switch
- Low level Capacitive
- Continuous monitoring Inductive
- Continuous monitoring Ultra sonic
- Air and Fluid Pressure

Agitation by Air Motor

-STAG Series

- Air motor for 1L, 2L and 5L
- Air motor for 10 and 25L
- Stainless steel standard mixing element
- Plastic mixing element
- Custom mixing element

Agitation by Electric Motor

-STEL Series

- Air motor for 1L, 2L and 5L
- Air motor for 10 and 25L
- Stainless steel standard mixing element
- Plastic mixing element
- Custom mixing element

Vacuum Conversion

-V Series

- Venturi manifold with atmospheric valve
- Vacuum gauge
- Dual Vacuum/Pressure kit
- Dual Vacuum/Pressure gauge

Custom modification

-CUSTOM Series

- Extra ports (lid and/or body)
- Additional components (2-way, 3-way valves, etc...)
- Complete system
- Custom combinations
- Level monitoring, pressure monitoring, etc...
